Very Light Saturday Run But Demand Good.

TOPS SETTLE ON \$4.30

Light Run of Cattle and Market Sleady.

Steady was the quotation made on hogs presterday at most of the western points, and one of them reported a full 5 cents lower. There was a lamentable lack of hogs on the market at all the receiving points and the total receipts all over were very high. It was an off day at all of them, and the run being so light there was a consequent want of enthuminem since also the quality was generally poor and the weight very light. The local market was wanting in hogs, and only the wagon division was represented and this was very small. There was a good nd all through the day and the local packing call was sufficient to take in many times the number of hogs offered. But as a matter of fact there is an evident mck of hogs in the country, and not enough to supply the call which is daily mude for them. This market has right along paid very high prices for only ordinary hogs, and lights and medium lights have received as strong a price as the better grades. And yet, though the shippers have no complaint as to the market, and have always done well of late, the receipts have been light. Yesterday and the day before they were practically nothing and yet his comparative showing for this market was very good. Five lower was announced for one of them and not The week has shown up well for tone of the market, and very keen and active as to demand, but the receipts have fallen below what they should have been and what was hoped for. Many times us many hogs were wanted and bid for than came in, and the prices paid by the Dold company all the week have been close to Kansas City top prices, and more than in line with all the others. Yesterday the quality was good for the few hogs received, but there was not enough to be

SHIPPERS AND NOTES.

The shipments yesterday for Saturday from the Dold plant were very good, and wiped out all standing orders. The weel has been very heavy and it is a matte of wonder how the demand has kep Both staples and specialties have received good attention all the week an each day has shown an increased outpu stock scattered all through this terr tory. Yesterday was an exceptionally good Saturday, as usually the last day of t heweek is a light one in point of chipments, and only such orders as have been held over go out. But yesterday there was a large line of immediate or ders received, and these made of the obbing department a busy and heavy day. A large line of cattle received the past two days went to the country and will be

fed by neighboring feeders. up the gloom of the closing end of the caloric over the establishment. new one, and the latest on the market, is receiving great attention and the demand Donahue; Brookiyn, McJames and Mc-is increasing all the time. Yesterday one Guire. Umpires, Snyder and Connolly. of the prominent merchants in a small own in the state, wrote that his first large order of this meat was received me day about noon and all of it was only doubled it, asking for twice as much as soon as it could be sent. This of wet grounds. Score: is makeup, and the name was suggested pliment to the able and experienced su-

ADVANCE IN THE PRICE OF HOGS. There seems to be a solid basis for the advance. While the production of the advance. While the production of meats has increased to some extent, the out by timely batting and Donlin's fumexport hus increased far more, showing bie of Delehanty's hit in the fifth inmeats has increased to some extent, the that there is a very brisk, strong demand ning. Attendance, 700. Score: RHE ances, for example, of pork, week before last were 787,600 pounds, as compared with 280,000 pounds the corresponding week last year. There is an increase of McFariand. Umpires, Emsile and McFariand. gloo, the pounds in bacon, of \$,000,005 Donald. ported during the same week was 29,522,000 pounds, as against 18,243,000 pounds a year ago. It is this that is putting the money in hogs and causing a are glad to see it. There has been less 2,300. Score: advance in the price of hogs and bog Louisville 20000003 - 5 5 0 any other product of the farm. Naturalso because hog products are less perishable and can be stored with greater rafety; hence, during the dull times an increasing supply on hand. The world is nerwasing supply for our pork now, and in this part of the country where it can

be grown cheaper than in any other, farmers will receive for the next year two some handsome profits from that branch of the farm. Every 5c advance now means that much added to the clear managed farms when corn is Mc; and un-der the cost on the poorest managed. When it gets to 3c on the farm, the good ton; no game; rain. it gets to 35c there is good money in it; and when ic is reached, as now, the farmer smiles unless the cholera cleans him out, and when this occurs he simply picks his flint and tries again. This advance in price means a great deal to who have not been feeling very jubliant of late.

Declines of 1 1-8 Cent in Both December and September.

NORTHWEST A SELLER

Coarse Grains and Provisions Close at Losses.

Chicago Aug 16 -Wheat was weak all for both December and September. The northwest was a large seller and the de-The weak cash market was also a factor. Corn declined -- 8@1-2c for September but closed only a shade lower for other months. Oats declined 1-8@1-4c and provisions 5677-3c.

Wheat opened weak at from 1-8 to 8-8c decline. Most of the trading was in December but September was given considerable attention and developed fully as much weakness as the latter months. Beyoud a decline at Liverpool and ideal harvesting weather in the northwest, there was nothing at first to influences selling. Nevertheless, the inclination to liquidate was quite general, and but little support was given the market except from shorts, who early in the day bought in considerable quantities. The northwest was even weaker than the local market, and this soon became a prominent factor, heavy selling orders coming from that section, which induced liquidation by local wheat—Receipts, 198,175 bushels; exports longs and also brought selling orders through commission houses. The result was a steady decline, the market getting under puts and even then receiving no substantial support. The cash market was budly out of line, hids being less by half a cent for September for No. 1 northern, which shippers would not accept. Later it was reported that several blds had been worked, but the effect of this was offset by advices from the northwest that much heavier receipts were expected next week. This was discounted by shorts who sold heavily, and in the last hour of the abort Saturday session the botton apparently dropped out of the market. Northwest receipts today were 229 cars, agninst 232 last week and 632 a year ago. Chicago receipts were 94 cars, 5 of contract grade. Total primary receipts were 564,000 bushels, compared with \$69,000 bushels last year. Atlantic port clearances of wheat and flour amounted to 621,000 The seaboard reported 38 loads worked for export. World's shipments were expected to reach 6,300,000 bushels. September wheat opened 1-493-8c lower at 713-5c. It declined to 701-2c and react-ed to 701-265-5c, where it closed. De-Cheese—Receipts, 2,384 packages; firmer; osmber opened 1-8@1-4c lower at 73 3-8@1-2c, declined to 72 3-5e and crosed at 72 1-2c naked.

Corn was decidedly weak for September and easy for other futures. The demand for September from shorts, the feature of points were larger, and country offerings more liberal, causing increased selling by receiving houses. The cash demand was only moderate. Receipts were 514 cars. September ranged from 31 1-2@5-Sc to 31 7-8 632c, and closed 3-861-2c lower at 31 5-8c. Osts, considering the weakness of other grain markets, were steady, the decline being less than 1-ic. The each demand was light and receipts liberal but mostly

kets. There was scattered liquidation by outsiders and scalping longs sold a little. At the decline packers were fair buyers of all products and the market was steady at the close. The cash demand for meats was good. At the close September pork was 5c lower at \$8.25; Septémber lard 5c lower at \$5.171-2 and September ribs 71-2c lower at \$5.121-2.

Estimated receipts Monday: Wheat, 100 cars; corn, 500; oats, 550; hogs, 33,000 head.

Left Over.

Than Expected - A Puzzling Week in Stocks.

New York Laur. M .- The market open Shipments-Flour, 7,000; wheat, 4,000; the price established for them yesterday money indicated that it would be \$3,500,000. The decline in the surplus is therefore largely due to increase in reserve require changes are impossible of explanation from any transactions known to the pub-

> prominent specialties and industrials showed extreme demoralization , early in the week. The raids by the bears upon these stocks were commonly supposed to be a tactical mancuver with the object of obstructing the disposition of the general list to advance. As a matter of fact, the violent breaks in the specialties proved ineffective to prevent the rise of verious isolated railroad stocks. When powerful support in the specialties frostrated the attempt of the bears to work further declines and the way seen tation reasserted itself. A comparison of prices showed some very substantial gains in a small number of the ratiroad stocks and some severe losses in the industrials. In the enajority of the standard railroad stocks not changes are small, nor has there been any marked activity in these stocks during the week. Quite a number of Southern and Southwestern railroads show reactions from recent high prices on profit-taking, which has been on a hrge scale. It has been sufficiently obvious that the tendency of the market to advance was chiefly due to operations by pools formed by professional speculators. The buping of 5,000 shares of stock and then bidding several points higher for 100 shares is quite a familiar process in Wall street, but in a number of cases this week the higher bid developed an natonishing amount of stock waiting to readise. A good deal of this, according to the opinion of specialists, is stock that was bought at a higher level last spring by that portion of the population designated in Wall street as the outside public. Having held through a heavy decline these owners are eager to take a small profit or even to get out without a loss. In the high-grade railroad stocks, such as the grangers and trunk lines, prices were long ago made to discount expected increases in dividend rates. In some cases these increases have not come, in spite of large gains in earnings but prices have been maintained at the high level. The return on the purchase money at the present dividend rates of many standard railroads is less than on high-grade bonds. Moreover, the great activity in all branches of trade and industry and the employment thus found for money has made a rate for money which tempts the conversion of securities into floating capital. Last year authorities in the financial world predicted that the return on capital would be permanentat 3 to 31-2 per cent and prices of highgrade securities were run up accordingly. With the money in the market yielding 4 per cent or better in loans, the holder of stocks and bonds on the high level of prices becomes somewhat precarious. This is shown in gilt-edged raffroad bords and abroad. That money is likely to continue firm, at least, at the present level, is the evident expectation of the world's financial authorities, he evidenced by the precesutionery and strengthening policy of the busin of England, France and Germany, which is continued even efter the considerable accumulation of reserve already effected. The same policy is in force by ever present case is apparent in the money market is obviously due to the quietness of speculation and the considerable liquimost promising field of operations has

In Wall Street Is in a Measure

BANK STATEMENT BETTER

with yesterday's drooping tendency still birely overcome during the short session, although there were improvements. The London exchange was closed for a holiday, leaving some uncertainty as to the speculative sentiment of that center, which was depressed yesterday. Added to this was a weak tone in Sugar, on a new war in the sugar trade. The new stocks of the Republic Steel company, dealt in on the exchange for the first time yesterday, showed a disinclination to maintain and Norfolk and Western and Northern Parent in the extlemed group showed a reactionary tendency. Consolidated Gas dropped an externe 412, Bookiyn Transit was heavy and there were other less important points of weakness. In the second bour the trading manifested a disposition to cover short contracts, apparently in the fear that the unfavorable character of the bank statement had been exaggerated, as proved to be the case. Renewed demand from the shorts forced up Consol. idated Gas an extreme 73-4. Mobile and Ohio gained about 3 and Northern Pacific rallied over a point. Great Western preerred gained 3; Louisville, Chicago and Eastern Illinois, St. Paul and Duluth, and the Tobacco stocks a point or over. Sugar advanced an extreme 2 1-4 and became very feverish, serving to unsettle them. The recovery in the general list, however, held for the most part. A feature was the movement in a number of insignificant stocks, including Peoria and Eastern, Kanwha and Michigan, Keokok and Des Moines and Colorado oCal Development company. In view of the forced liquidaion in Brooklyn Transit early in the week, the extension of credits to the amount of \$9,560,000 shown by the bank statement came as a surprise. The decrease in cash proved to be less than a million, whereas the known movements of rooms. ments by reason of the loan expansion Viewed apart from the previous exaggerated estimates, the return is weak. WORLD'S MILE RECORD,

Intermediate marks: Quarter mile, 21 3-5 seconds; half mile, 43 seconds; three-quarter mile, 1:07 3-5. All are world's records for the respective distances. Made at New Bedford, Mass., June 29th, by Eddie McDuffee, on a

Columbia Bevel-Gear Chainless.

McDuffee's feat is worthy of special note as the bicycle he rode was one of our regular Columbia Bevel-Gear Chainless Road Machines, model 59, with racing equipment. The superiority of the Columbia Bevel-Gear Chainless on the road has been demonstrated over and over again. McDuffee's feat proves that it is superior to other wheels for track purposes as well.

CHAINLESS \$60 TO \$75. CHAIN WHEELS \$25 TO \$50.
